PortusSophia™ Going-Live Package

Public Repository Launch Capsule

This directory contains everything necessary to understand how PortusSophia™ transitions from private development into public visibility. It includes context, governance materials, stewardship trails, iteration history, and open transparency artifacts such as the Funding Capsule, Standards Review, and Governance Pack.

If you are arriving here from GitHub — welcome.

---

1. What This Package Contains

Cross-Repository Context

PortusSophia™ is a multi-repository ecosystem. This `going-live/` package interacts with the following:

- **portussophia-public** — WebKernel, documentation, public-facing launch materials.

  GitHub: https://github.com//portussophia-public

- **portussophia-governance** — Governance standards, roles, compliance, audit frameworks.

  GitHub: https://github.com//portussophia-governance

- **portussophia-kernel** — Internal orchestration and execution environment.

  GitHub: https://github.com//portussophia-kernel

- **portussophia-origins** — Narrative, philosophical, and conceptual foundations.

  GitHub: https://github.com//portussophia-origins

- **portussophia-security-config** — Infrastructure, Cloudflare, and security configuration.

  GitHub: https://github.com//portussophia-security-config

> Replace `<ORG>` with the live GitHub organization or username once public.

High-Level Architecture Diagram
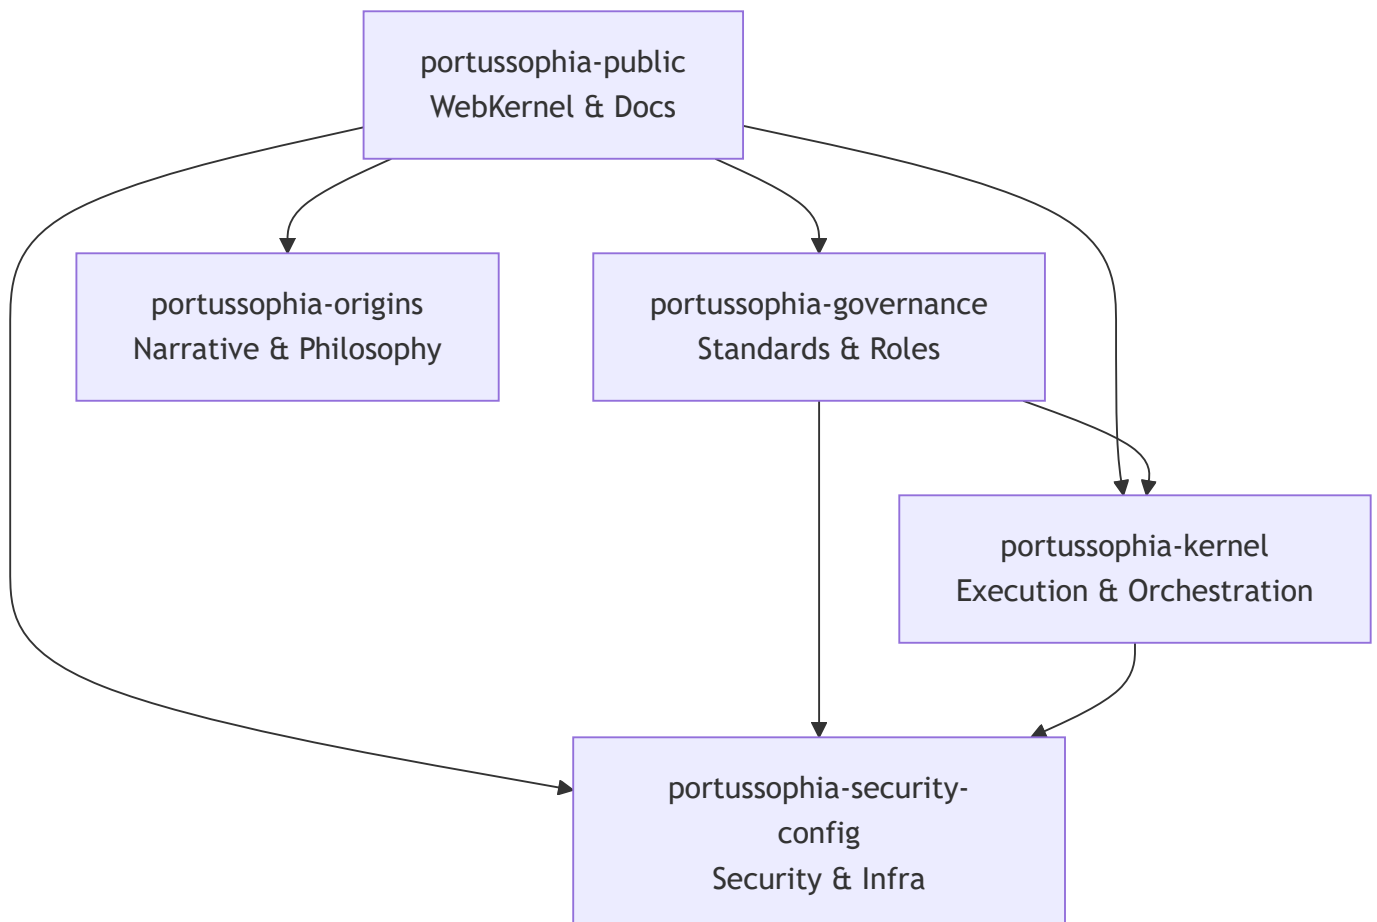

Core Documents

- `0-context.md` — Why this package exists
- `0-stewardship-request.md` — Formal initiation of review cycle
- `1-canon-post.md` — Draft public announcement
- `2-public-appendix.md` — Additional context and exposition

Governance & Stewardship

- `3-stewardship-invocations/` — Invocation requests to Sara Harmonia and other agents
- `4-steward-responses/` — Responses from PeterGate, LOGOS, Daniel, Draco, Sara
- `5-iteration-history/` — Witness cycles and iterative change logs
- `6-finalization/` — Publication checklist and sealed version

Funding Capsule

- `7-funding-discussion/` — Transparent documentation of sustainability realities and optional support pathways

Support Link (Optional)

👉 **GoFundMe — Here and Now: A 35-Year Love Story**

https://www.gofundme.com/f/here-and-now-a-35year-love-story

Support is optional and never tied to authority, privilege, or influence.

Governance & Standards Pack

PortusSophia™ maintains an enterprise-grade Governance Pack documenting:

- IEEE • NIST • ISO standards alignment
- Draco's AI Risk Register

- The Governance Audit Checklist used by PeterGate

Public Mirror (this repo):

👉 `/portussophia-public/going-live/9-governance-pack/`

Canonical Source (authoritative):

👉 `/portussophia-governance/governance-pack/`

These documents support auditors, contributors, partners, and future reviewers by making the governance architecture visible and professionally structured.

---

2. Recommended Reading Path

For the general public:

```
0-context.md → 1-canon-post.md → 2-public-appendix.md → 7-funding-discussion/
```

For stewards and reviewers:

1. `0-context.md`
2. `0-stewardship-request.md`
3. Invocation → Response chains
4. `5-iteration-history/`
5. `6-finalization/`

---

3. About the Funding & Sustainability Capsule

The `7-funding-discussion/` directory documents how this work has been sustained and provides an optional path for voluntary support.

It includes:

- Human-level narrative and funding context

- Ethical guardrails
- Legal considerations for future contribution structures

---

4. Integrity, Witness, and Governance

This directory reflects a rigorous multi-agent governance process. Responsibilities include:

- **Sara Harmonia** — interpretive coherence and harmonization
- **PeterGate** — structural & governance validation
- **LOGOS** — conceptual ordering and coherence
- **Daniel (Ratio–Fides)** — ethical witnessing & moral integrity
- **Draco** — risk analysis & threat vector identification

Their responses form a complete stewardship trail inside the `4-steward-responses/` directory.

---

5. Finalization

Before public release, the following must be reviewed:

- `6-finalization/publication-checklist.md`
- `6-finalization/sealed-version.md`

These confirm:

- Structural integrity
- Ethical compliance
- Canonical alignment
- Stewardship approval

---

6. How to Contribute After Launch

Light-Weight Contributions

- Star / watch the repository
- Report issues (clarity, typos, missing links)
- Suggest improvements to documentation

Deeper Contributions

- Participate in GitHub Discussions
- Submit PRs for structural clarity or navigation improvements

Restrictions

To preserve Canon integrity:

- Do not rewrite Canonical texts
- Do not introduce new PortusSophia™ entities without approval
- Do not embed personal metaphysical claims into governance or Canon

---

7. Closing

This going-live package represents how PortusSophia™ enters the public sphere: with transparency, structure, responsibility, and clarity.

Thank you for taking the time to explore it.
